

The *finish* is the start of the story.

Taymor[®]

Our *Special Finish Program* features a diverse selection of brushed, matte, and polished finishes that empower Developers & Designers to craft unique design stories for their interior spaces.

With coordinating hues available across Taymor's door and bath architectural hardware, *the finish really is just the start of the story.*

Finishes

Satin *Brass*/Brushed *Brass*

The epitome of opulence — Satin Brass/Brushed Brass infuses spaces with elegance, and luxury for a bold statement, especially when paired with warm woods & rich stones.

Gun Metal

Subtle in its refinement, Gun Metal contains hints of warmth that beautifully complement natural materials to create elevated, exciting spaces.

Matte Black

Contemporary and bold, Matte Black perfectly punctuates contemporary interiors by providing a dramatic visual element.

Satin Stainless/ Brushed Nickel

This finish is soft and forgiving, making it a practical yet refined choice for design styles that feature mixed materials, like honed stones and matte woods.

Satin Nickel

Timeless and versatile, Satin Nickel is a true design staple that lends itself well across a wide range of styles — from transitional to contemporary.

Dark Bronze

Transitional, rich, and alluring, this finish brings warmth into a space and suits an array of color palettes — from light to dark.

Polished *Chrome*

Sophisticated and sleek — Polished Chrome is a consistent favorite, reflecting light and reinforcing the illusion of space.

Polished *Nickel*

With its warm undertones, Polished Nickel evokes understated elegance while adding just the right touch of excitement to the bathroom.
